

## CLEARING BUXAR'S MASSIVE 40,000-TON LEGACY WASTE

*Clearing Buxar's massive ~40,000-ton legacy waste dump is a core priority for MLA Anand Mishra.*

### **Strict Accountability via DISHA and Administration Reviews**

**Ending Administrative Lethargy:** *Anand Mishra leverages District Development Coordination and Monitoring Committee (DISHA) meetings to prevent the legacy waste project from becoming a perpetual source of corruption or delay. He holds the Buxar Nagar Parishad executive officers and contractors strictly accountable to clear-cut milestones.*

**Demanding SOP Adherence:** *Utilizing his strong background in administrative oversight, he cross-checks technical indicators to ensure contractors execute the biomining process transparently specifically demanding that the weight of processed fractions matches actual output to prevent financial inflation.*
